JARIN ASHA

Healthcare AI · Explainable AI · Information Retrieval

New York, NY · Jarin.Asha54@login.cuny.edu
github.com/jasha001 · LinkedIn: jarin-asha-7307662a5

RESEARCH INTERESTS

Explainable and trustworthy AI; healthcare and medical text classification; semantic search and information retrieval; accessible tools for reading and understanding research.

EDUCATION

New York City College of Technology, CUNY
Bachelor of Technology (BTech), Computer Systems Technology · In progress

Borough of Manhattan Community College, CUNY
Associate of Applied Science, Computer Information Systems · Completed Fall 2025

RESEARCH & DEVELOPMENT

Improving Search Accuracy in a Healthcare Research Paper Database
Emerging Scholars Program, City Tech · Fall 2026
Faculty mentor: Professor Ahmet Yuksel
Ongoing project to compare keyword and semantic retrieval on open-access healthcare papers using relevance and response time. Evaluation results are pending.

ResearchLens AI — Independent developer
researchlens-beta.onrender.com
Developing a public beta for PDF-based English/Bengali explanations, paper questions, and source passages. Stack: Python/FastAPI, React, Gemini API, PostgreSQL. Automated source checks do not guarantee answer accuracy.

Evaluating the Reliability of Explainable AI Methods for Medical Text Classification
Independent study · Planning
Planning an evaluation of explanation reliability on public medical text data. Separate from the ESP retrieval project.

SELECTED PUBLICATIONS & PREPRINTS

Efficacy of Digital Mental Health Interventions in Reducing Depression and Anxiety Among Young Adults: A Systematic Review
Journal article · 2026 · First author · International Journal of Drug Delivery Technology
doi.org/10.25258/ijddt.16.76s.85

Towards Transparent Mental Health AI: An Explainable Multi-Branch Ensemble Model for Suicide Ideation Detection on Social Media
Preprint · 2025 · Co-author · Research Square
doi.org/10.21203/rs.3.rs-7965037/v1

Interpretable Deep Learning for Symptom-Based Lung Cancer Prediction Using a 1D CNN Framework
Preprint · 2025 · Co-author · Zenodo
doi.org/10.5281/zenodo.17428160

JARIN ASHA

Academic CV · Selected experience and projects

SELECTED PROJECTS & RECOGNITION

Smart Campus Navigation & Transit App
1st Place · Google Innovation / AI Program, City Tech · 2025
Campus navigation and transit application concept incorporating accessibility and routing.

Instant Care AI
1st Place · Amazon AI Explorer Program, BMCC · 2024
Healthcare triage prototype exploring symptom severity and care pathways; an educational project.

AI Solution for Zero Hunger Initiative
BMCC AI Innovation Program · 2024
Explored a machine learning concept for food supply optimization, campus food insecurity, and waste reduction.

Dean's List · Borough of Manhattan Community College · Fall 2023

PROFESSIONAL EXPERIENCE

IT Support Intern · GuacTime Mexican Grill, New York
July 2026–Present
Support point-of-sale systems and use SQL and Excel for inventory-related tasks.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, SQL, HTML, CSS
AI & research: Machine learning, deep learning, CNNs, explainable AI, SHAP, information retrieval
Development: REST APIs, JSON, Git, GitHub, VS Code, IntelliJ
Data & systems: MySQL, Oracle, Excel; Windows, Linux, macOS

ACADEMIC ENGAGEMENT

City Tech graduation volunteer · 2026
Google AI workshops · 2025
Amazon AI training · 2024
